

## Quality Actions for Quality Clients

Enid, OK - Oklahoma City, OK - Stillwater, OK (coming soon!)

**Now Hiring!**

## Staff Scientist/Engineer

In 2022, we are celebrating 30 years of exceptional service to our clients, our talented team members, and their families. Our outstanding growth has been a direct result of the commitment of our team members to our Mission of Quality Actions for Quality Clients.

Our workplace culture is a rewarding and refreshing combination of opportunities for empowerment, career advancement, and for the ideal-fit candidate in this role, ownership in the company. Our current President is one of the owners, a Professional Engineer (PE), is highly trusted by team members and clients, and has worked for Envirotech since graduation from college.

If the following sounds like you, you will thrive in this role:

- We are seeking a full-time entry level scientist or engineer. We are looking for an entrepreneurial-minded, qualified, and knowledgeable professional who seeks a fast-paced and challenging work environment, and opportunity to grow, and a desire for autonomy.
- If you're seeking an opportunity for professional growth, consider joining a successful and growing firm where your progression is based more on your accomplishments, your hunger, and your desire to succeed.
- We are driven by inspiring the right people to be part of our future-focused business objectives. We are looking for to hear from dedicated and hard-working individuals to join our team. Our pace is fast, and the work is challenging, but the opportunities are here for long term employment and growth, both professionally and personally.
- The selected candidate will become part of a team that provides project consulting and site planning, design, and engineering services. This position will provide opportunities for the candidate to work in the field collecting data as well as work in the office, with opportunities to participate in projects from the beginning to the end. The opportunities are endless! You will actively support Envirotech's commitment to safety and its Core Values.

Primary responsibilities of this position include:

- Be able to work approximately 50% in the office and 50% in the field on projects as needed.
- Assist in the collection and analysis of data from surveys, sampling, reports, maps, drawings, tests, and aerial photographs to evaluate, plan, and permit projects.
- Conduct water, soil, and other sampling activities.
- Assist in topographic and drone surveys.
- Assist in geotechnical and geologic explorations in support of work for public and private clients.
- Prepare written technical reports and permit applications.
- Draft written proposals to clients.
- Work with team members to learn GIS, AutoCAD, and other data processing/interpreting software.
- Maintain key client relationships.

- Be flexible and adapt to an ever-changing work environment.
- Be able to organize and manage multiple priorities.
- Poses a strong sense of urgency and be capable of prioritizing tasks, meeting deadlines, and coordinating with clients/fellow team members.

The minimum requirement for this position is a bachelor's degree in engineering, environmental science, geology, agricultural, or a closely related science field. In lieu of a degree, a minimum of 5 years related experience will be accepted.

Talent is the essence of meeting our client's objectives, goals, and challenges. If this sounds like a fit for you, we would love to have that first discussion about you joining our team.

Envirotech strives to provide unparalleled services to our clients. Our guiding philosophy – Quality Actions for Quality Clients – remains constant.

Envirotech offers a competitive compensation and benefits package including a 401K plan with a company match.

More reasons to join our team:

- A working environment full of dedicated coworkers, and a team of organizational leaders focused on ensuring you have the tools necessary to succeed!
- Envirotech is EEOC compliant and certainly encourages America's military veterans to apply.
- Opportunities for advancement and development.
- Family-owned business and atmosphere.
- Variety of interesting assignments, projects, and work locations.
- Envirotech makes an investment in your development and training. You may receive **company-paid** training to receive certifications in relevant areas.
