

## Quality Actions for Quality Clients

Enid, OK - Oklahoma City, OK

**Now Hiring!**

# Entry Level Engineer (EIT preferred, but not required)

ENVIROTECH ENGINEERING AND CONSULTING is a full-service design engineering, environmental consulting, and geotechnical services firm servicing public and private clients throughout the country.

For over 30 years, we have provided exceptional service to our clients, our talented team members, and their families. Our outstanding growth is a direct result of the commitment we have to our mission statement of Quality Actions for Quality Clients.

Our workplace culture is a rewarding and refreshing combination of opportunities for empowerment and career advancement. For example, at just 38 years old, our current President is highly trusted by team members and clients and has worked for ENVIROTECH since graduating from college.

If the following goals align with yours, we suspect you will thrive in this role:

- Be paid what you're worth and enjoy great benefits. We will openly discuss pay, including all benefits, in our initial conversation. Compensation also includes potential bonuses. We know that pay and benefits are critical elements to your professional success. You will also be afforded a company laptop and cell phone, which you are invited to take home each day.
- This newly created position will report directly to the Engineering Director, a servant-leader who will advocate for you and your ideas, requests, and successes. With our company's open-door policy, you will have near-immediate access to him at all times.
- You will be coached in communication skills that will allow you to relate to, and build trust with everyone, from diverse backgrounds and experiences. We aim to make our culture what engages and retains you.
- You will enjoy a great amount of autonomy; that is how we operate. We are one team, and we trust our supervisors, managers, and leaders to be fully accountable for driving Quality Actions, as our mission statement declares.

### **The Engineering Team qualifications:**

- 4-year college degree from an accredited university in a relevant engineering field.
- A candidate for Engineer in Training, preferred.
- AutoDesk / AutoCAD Civil 3D competency.
- Applicable work experience.
- Understands utilization and billable rates.
- Legally eligible to work in the US, can pass comprehensive background checks, and are willing to submit to a drug screen if asked.

### **Other primary duties:**

- Make detailed plans to accomplish goals.
- Draft proposals and reports for clients.
- Check the technical accuracy of your work.
- Attract and acquire future business.
- Review historical projects and proficiently re-create them with updated locations, client specifics, etc.
- Be responsible for complex engineering site civil plans.
